

Quotation

Quotation Details			
Quote ref./Vers-No:	7071469_1	Date:	15/08/2022
Customer Account Number	7964		
Customer Name	adp Gauselmann GmbH		
Customer Contact Person			
Inquiry Number	Test12@#	Inquiry Date	15/08/2022

Technical Product Description			
Boards per panel	36	Base Cu Thickness OL	0.018
Brett dick. (mm)	1.6	Base Cu Thickness IL	0.035
Dim. of PCB (mm)	59.002X463.0	Contour	Milling + no
Dim. of Panel (mm)	463.0X613.0	Min Line width / Spacing (µm)	150.0/0.0
Layer Count	4	Nr of Holes / Delivery Panel	1
Basematerial	TG 150	Min.finished hole size (mm):	0.0
Surface Finish	Copper	Blind Vias	No
HardGold/Goldfinner	No	Buried Via holes	No
Controlled impedance	No	Semiflex	No
AOI	No	Additonal Print	
			Photo via filling
			Via Plugging
Electrical test	Yes	Press Fit	No

Comments	
The prices are based on today's costs. Should there be any modifcatons concerning base material prices we are allowed to adjust the prices accordingly.	

Terms & Conditions			
Delivery tme ex works			
Offer valid from	15 Aug, 2022	Until	14 Sep, 2022
Terms of payment	14 days net		
Terms of delivery	EXW		
Fob Place	Geldern

High Reliability Business Unit of the Unimicron Group

Disclaimer

1. In case that there are data, design and/or details for producing the boards stipulated by your company for the ordered products we assume your own competence to do so. Therefore we exclude our warranty concerning your input.
2. Our calculation is based on an exchange rate 1 EUR = 1.0000 EUR. If this exchange rate fluctuates more than 5% the price has to be negotiated anew.
3. Our prices are to be considered as approximate values only, because we did not obtain final data for our calculation and therefore not all price-influencing parameters are known to us.
4. Due to the small size, we have to produce the PCB's in a panel-format. Our suggestion: 9 panel, ca. 285 x 249.5mm.
5. Our prices are to be considered as approximate values only. The calculation should be verified after clearness of all technical data and after a feasibility check through a samples production.

Special Remarks

In case that there are data, design and/or details for producing the boards stipulated by your company for the ordered products we assume your own competence to do so. Therefore we exclude our warranty concerning your input. In case that there are data, design and/or details for producing the boards stipulated by your company for the ordered products we assume your own competence to do so. Therefore we exclude our warranty concerning your input. In case that there are data, design and/or details for producing the boards stipulated by your company for the ordered products we assume your own competence to do so. Therefore we exclude our warranty concerning your input.

Due to the current shortages in supply of the raw materials our delivery times and availability of our materials are to be considered non-binding, this also applies to all already submitted offers and currently running contracts.

For the sake of order we already now point out that in the case where we are not able to deliver on time caused by our suppliers inability to deliver we are not at fault of the delayed delivery and therefore refuse any indemnity claims or other costs occurred with you.
